

**FITS
NPT & BSPT
THREADS**

TurretJet™

**RATED
TO
150 PSI
(10 BAR)**

You can choose
the orifice size and
extension to suit your
application!

New metric tapped
balls allow use with
Extension Tubes and
Spray Tips.

UNIVERSAL COOLANT NOZZLE FOR CNC MACHINES

- Converts any NPT or BSPT hole to a fully adjustable nozzle
- Hits any target above mounting plane
- Adjusts easily for accurate coolant placement
- Difficult to accidentally knock out of adjustment
- Choose larger orifices for maximum flow
- Choose smaller orifices when using multiple nozzles
- Choose tapped ball if you need to quickly plug the orifice (setscrew included)
- Metric tapped balls allow use with **Extension Tubes** and **Spray Tips**.
- Choose short extensions for tight spaces like CNC Turning Centers and Screw Machines
- Longer extensions are a breeze to aim and shoot farther, great for Machining Centers and CNC Multi-Axis Grinders
